Dr. Sopan Kangane

Principal, CACPE

Our commitment at CACPE is to provide a safe and intellectually challenging environment that will empower students to become innovative thinkers, creative problem solvers and inspired learners prepared to thrive in the twenty-first century. To my mind an educational institute is not just about walls made up of bricks, grout and concrete, but about building character, enriching minds and experiences that last a lifetime. Today, the role of a college is not only to pursue academic excellence, but also to motivate and empower its students to be lifelong learners, critical thinkers, and productive members of an ever-changing global society.

High standards and expectations for each student in regard to academic performance, co-curricular participation, and responsible citizenship are the foundation of our college. It is with pride that we hold these high standards and ask each of our students to commit to maintaining the extraordinary record of achievement and contribution that has been the legacy of CACPE students. It is the contribution of our students to our college community that makes CACPE an exceptional learning community. Full participation in academic and co-curricular programs and a willingness to act responsibly as an individual within our educational environment are the factors that enable all to have a successful and enjoyable career.

I invite you all to experience and join our certification courses. Let us all together build sports, physical education and fitness family. In conclusion, I wish you all the best.

Sincerely,
Dr. Sopan Kangane
Principal
